About This Game

Build Your Strategy. Squash Space Snails. Be a Star Viking.

In Star Vikings Forever you will build your team of spacefaring Vikings to take on the evil scourge of intergalactic snails in a fun and nearly endless stream of challenging puzzles.

Best Indie at Google Play Best of 2017, Finalist at the Google Play Indie Games Festival, Winner for "Best Game Design" at the Brazilian Independent Games Festival, and "Most Offensive Game Ever" at the Space Snails Game Conference. Star Vikings Forever is a humorous Puzzle/RPG developed by the award-winning creators of Chroma Squad, Dungeonland, and Relic Hunters Zero.

Position your team of uniquely built Vikings to strategically attack enemies, and clear the board. Enemies aren't the brightest, and will attack each other whenever they are attacked. This creates a very satisfying chain-combo system, where you can wipe entire boards with a few moves to clear a path to advance to the next stage, or to complete a specific objective.

Take your time and strategize, or for faster paced combat, make multiple moves simultaneously. Puzzles are procedurally generated, allowing for unique and nonlinear challenges every time. Each character has a standard melee attack, along with a special ability attack that will send snails crying home to their shells. Each special ability is unique to their class and provides an additional layer of strategy in solving puzzles.

Star Vikings' unique gameplay is packed full of content, and will turn even your non-gamer grandma into a hardcore min-maxing machine by the time the credits roll!

Retro gamers, it is exactly what you think it is.

Currently, there is no joystick support for the x360 controller, despite the setup splash screen before starting the game...

Mouse control: moving left or right from a fixed point where you hold down the L-mouse button, which also fires your weapon.

Space: jump back away from the grid. (consumes energy)

L-Ctrl: fires beam weapon. (consumes more energy)

The lack of controls is annoying, ATM, but hopefully joystick support will be added. The game itself is wonderfully frantic, disorienting, and twitchy... exactly what a tube-shooter should be!. Beautiful. Just beautiful. I have not seen such an intelligent way of telling a story with characters so rich in humanity.

To put pride, greed, fear, jealousy in the characters and at the same time justify these emotions as "just human", is out of pure genius.

10/10.. Can be frustrating grind like any card game unless willing to spend £££, but once you reach a certain "tier" becomes quite fun and addictive.. needs to have a feature that allows us to save between levels, with death being permanent and forcing the save file to delete or start over. i enjoy this game, but was disappointed to make it to level 3 and then be forced to quit (have to go to work) without having the option to pick up where i left off when i get home.

if you're a devil daggers fan then you will need this in your library. it's extremely challenging and fun as hell.

also, devs, you guys should just call it Autumn Night and take 3d shooter out of the title. nancy drew visits the set of mean girls and says that the limit to her crime-solving powers does not exist. I won't say it's bad because it did seem to attempt to improve on the raising aspects a little bit from what was in the previous two games and the voice acting was nice, but I ended up not liking it as much as PM2. The missing adventure mode was sorely missed, and although it was cute seeing more of the daughter running around doing stuff for jobs, it wasn't enough for me to enjoy this more than I had the previous game. Other than that, the translation quality was no worse or less than the previous games, in my opinion, and was readable enough. Overall, if you liked the other games in the Princess Maker series, I would recommend giving this game a try.

I love escape room games, and yet somehow I can't give this game the thumbs up. The puzzles aren't particularly "fun". Some are tedious, such as morse code, and often the obvious thing to do (such as melting the ice on the screwdriver - in real life one would just smash that ice off with the hammer) can't be done and instead some elaborate puzzle needs to be solved instead. It does have a hint system, but it's not a good hint system. The hint system tells you exactly what you need to do, which takes away the fun, whereas a good hint system would just give a clue to prod you in the right direction.. i love this game. It was a very fun and addictive game with very rich content. I loved the girls and want to marry one of them. Especially the one on her knees ;). terrible game player gets stuck for no reason. 9p? Who wouldn't?. WTF is this?!. Sensi, anyone?. I Love AutoCraft! It is a game where you can really use your imagination to create what you want. There is a gigantic variety of items to use including Weapons, ways of transportation and tools like wrecking balls and crane hooks. Not only can you use sandbox mode to build what you desire but you can also do challenge mode where you are given tasks and a number of items selected for you to build a contraption that will get you to the end. Great Game

BETA Update 1 is out!:

Hey everyone,

Thanks a lot for all the help with the game's Beta. Your feedback and gameplay videos have been invaluable.

We are releasing the first major update to the Beta. The game is almost content-complete, and you can now finish it. Just be aware that the cutscenes are still very unpolished and their low quality can spoil the experience a bit.

Our first major change in response to your feedback was the interface: you told us that it is too big and too "mobile-y". We made it big to match our inspirations (PopCap games from the early 2000's, mostly), but we understand that for today's standards they look uncomfortable and they make the game look like a mobile port.

We hope you like the new look for the interface! Our Shop is still unfinished though, so it still looks ugly (sorry!).

Next update: the ranked "Trials of Valhalla" mode! (that's the big green gate on Snail Planet, for those of you who asked).

Cheers,

~Mark

Features

Act 4 is now accessible!

All Mystery Levels are now accessible!

The Boss Battle and Ending are now accessible (but cutscenes still suck though)!

OSX and Linux versions!

Enhancements

New interface scale and polish! Let us know what you think! :)

Fixes

Fixed a bug where Lava Snails would target the exit squares;

Fixed a bug where the Pirate Snails and Temple Snails visuals would change while attacking;

Fixed a bug where 4:3 resolutions would not allow you to exit the board on the top left corner;

Fixed a bug where the "Delete" button on the Viking Screen would show up in the wrong Language;

Fixed a bug where Moon Snails would steal health from one another creating an infinite combo;

Fixed a bug where the Ice Rifle effect would be crazy and floating around the screen;

Fixed a bug where the Fire Trap effect would be misplaced when fired upwards;

Fixed a bug where the price for Laser Sweep item would be displayed incorrectly on the shops;

Fixed several minor text errors;. **Update 1 - First Major Update :D:**

Hi everyone,

We have just released the first major Update for Star Vikings. :-)

Overall we have:

- * Significant performance optimization;
- * Smaller build size;
- * Rebalance of Act 2 difficulty;
- * Bug fixes

Here are the full patch notes:

Gameplay Changes

Act 2 quest now in line with new Fuel Node requirements

Fixed a bug where more Pirate Putrid Snails than intended were spawning on the "Pirate's Booty" stage on Act 2

Reduced Fuel Cost on Act 2 progression from 8 to 5

Reduced the difficulty on Shooter Challenge and Tank Challenge

Fixes & Optimizations

Huge performance improvement

Smaller textures implemented

Fix a bug where Sneaky arm color would be wrong

Fix a bug where the game would freeze

Many broken animations fixed

Bug fixes(Fix cutscene actors quality, Fix sniper white body)

New textures and backgrounds for Cutscenes

New textures for Dialogues

Thanks for playing!

Cheers,

~Mark. **Star Vikings Forever Released!:**

The day has finally come, Star Vikings Forever is LIVE!

Are you going to start the game over with a fresh team, or hop into the fray on New Game + mode?

If you didn't hear, there's some fun updates:

- New Game Plus Mode (after you beat original game)
- New Languages - French, Italian, German, Spanish, and Russian!
- UI Revamped for Steam
- Restart button added to all levels, so you don't have to quit out to the main menu anymore
- Performance optimization

-
- New logo, branding, title screen, and awesomeness!

. Star Vikings Forever Announced!:

We're very excited to announce that Star Vikings is getting revamped and relaunching as Star Vikings Forever on Steam, as well as releasing on iOS and Android devices July 6th!

[Check out the New Trailer!](#)

This is a free update for all current owners of the game. Earlier this year Rogue Snail announced their partnership with publisher [Akupara Games](http://www.akuparagames.com), who is working with them on this release.

There are a lot of little updates and bug fixes, but most notably we added NEW GAME PLUS! Once you beat the game, play it again with your same party, fighting harder enemies, and upgrading your Hats to the EXTREME!

Here's some of the new updates:

- New Game Plus Mode (after you beat original game)
- New Languages - French, Italian, German, Spanish, and Russian!
- UI Revamped for Steam
- Restart button added to all levels, so you don't have to quit out to the main menu anymore
- Performance optimization
- New logo, branding, title screen, and awesomeness!

Bug Squashin' Update!:

Hello space snails, long time! We've updated the game with a bundle of bug fixes for you. This doesn't include every outstanding issue, but should bring some further improvements to your experience!

Changelog:

- Bug Fix - Loki's Helmet bonus skill damage is now given to the entire party
- Bug Fix - Some days the Daily Quests would display an error message. This is now addressed
- Enhanced Quest notification - old unfinished daily quests do not pop up anymore, before you get a new one
- The Party screen is now unselectable on Act 1 part 1
- The Quest button is now unselectable when you don't have any active quests
- Fixed some interface layouts that were broken
- Small fixes to Localization for Russian, French, Italian, and Spanish

. Performance Patch:

Hello space snails, we have patched the game with some better performance and bug fixes!

Changelog:

- InGame CPU workload optimizations (running 4 times faster)
- Fixed some constant freezing issues
- FPS limit option
- Fixed Bullseye ability
- Minor graphics optimizations

. Beta Is Over!:

Hi everyone,

Thank you dearly for assisting us during the past few months. Your feedback has been invaluable!

The Beta is officially over and we are releasing the game on Thursday (October 6th) for PC, Mac and Linux! Yay!

Your Beta keys won't carry over to the final game. If you liked the game, please support us by buying a copy!

****But just wanted to give you a heads-up!****

Before release tomorrow Valve will revoke free Beta access. The full game will only be available if you purchase it.

You might get a very scary message saying you had a "Payment Issue" or some nonsense like that. It's a default message from Valve, and I wish they could change it, but it 100% HARMLESS and will NOT flag your account or have ANY negative repercussions whatsoever.

I hope it is clear :) And I hope it does not scare you when it comes up (I find it to be a bit scary, myself).

Cheers,

~Mark
